## Contents

### Featured Employers
- AWE
- sck cen
- UNIVERSITY OF BIRMINGHAM
- BLUE FORS
- Cambridge Assessment International Education
- CARDIFF UNIVERSITY
- Physical Group
- University of Central Lancashire
- CERN
- CityU
- Department of Physics
- The Cockcroft Institute
- [dstl]
- DESY
- Elekta
- ICFO
- Institute of Physics
- Intellectual Property Office
- University of Liverpool
- MBDA Missile Systems
- MPI
- QINETIQ
- Researchers in Schools
- UCD
- UK Atomic Energy Authority
- Zurich Instruments

### Career Development
- Foreword 4
- Welcome 5
- Closing the skills gap 6
- Hacking a path to innovation 8
- Keeping up with opportunities 10
- Path of least resistance 12

### Case Studies
- AI and medical imaging 16
- Condensed matter 18
- Gravitational-wave interferometry 20
- Food science 22
- Quantum computing 24
- Surface science 26
- Linear accelerators 28
- Instrumentation and measurement 30
- Aerospace engineering 32

### Ask Me Anything
- Testing the cosmos 34
- Building quantum tools 35
- Keeping time 36
- Technology for life 37
- Medical linac systems 38
- Observational astronomy 39
- Space communicator 40
- Quantum computing and atomic electronics 41
- 2D materials and nanoelectronics 42
