

PIANOTEQ 7

TRUE MODELING

STEINWAY & SONS

GROTRIAN.

C. BECHSTEIN

Pianoteq is an award-winning physically modelled instrument for MacOS, Windows and Linux.

Enjoy virtual acoustic and electric pianos, harps, harpsichords, celestas, vibraphones, xylophones, and more!

Instruments are authorized by major piano manufacturers.

Bliithner.

ANT PETROF

Steingraeber & Söhne.

Pianoteq 7 includes two splendid Steinway D models: one from New York, one from Hamburg, providing the famous Steinway concert piano sound.

Pianoteq 7 introduces acoustic Morphing and Layering. This innovative technology lets you create and mix hybrid instruments with stunning acoustic authenticity.

Download a free trial version at www.modartt.com

Pianoteq runs on any modern laptop, Installation is simple and fast. Just connect it to your MIDI compatible keyboard and start playing.
