COVER STORY

38

AUSTRALIA'S RENEWABLES PARADOX

Australia has the highest per-capita use of rooftop solar power but the federal government still keenly supports fossil fuels. Matthew Brace asks what's up Down Under?

20

THE NEW UK FARM

In the wake of the new trade deal with Australia, Mark Rowe asks whether opening up the UK to meat from other continents will spell the end of British farming.

46

PORTRAITS OF XINJIANG

A photography project documents changes in the infamous Chinese province.

30

GREAT GREEN WALL

A visit to Burkina Faso highlights the importance of the ambitious project to save the Sahel.

52

SPOTLIGHT ON: THE COA VALLEY

Following the plot to revive an important part of the Portuguese rural heartland.
